Subject: Complaint

Just wanted to voice a complaint pertaining to your county property tax billings.

I file personal property taxes in every state which imposes such as tax and never before have I encountered a situation like the following:

I received a 2013 personal property tax statement and NO WHERE on such document is the name of your county. I do find the Treasurer's name FIVE times throughout the form!

Since I receive over 10,000 tax bills a year it would be quite helpful if you could see that the name of your county is shown somewhere on the correspondence.
