**To:** Ravalli County Commissioners  
**Subject:** Decision on Title X family funding

To Ravalli County Commission:

Please, please reconsider your decision to refuse Title X funding. Your vote will hurt the many low-income women and men who rely on the low- to no-cost family planning and reproductive healthcare services it provides. Your reasoning for rejecting this is unfounded. You stand to hurt hundreds of people with this decision. In addition, it will likely increase the number of unwanted pregnancies for women who can't afford them, just because they couldn't access birth control; many will end in abortion. I'm sure you do not support this, though it is entirely preventable with the continued use of the preventative services you are voting against.

Please, please reconsider your decision.
