Ravalli Co Republican Party & Ravalli County Commissioners

Regards: Linda Isaacs for County Treasurer

As County Treasurer of Sanders County, I have known Linda Isaac for at least 10 years or more. She was employed with Black Mountain Software as a support tech for all the County Treasurer's who used their systems. She was extremely courteous and professional in her position there.

Linda is currently working in the County Treasurer's office there in Ravalli and has all kind of knowledge and understanding the workings of the County Treasurer's position. There is still times when I need help that I call her for advice or help. She has done the accounting and tax collection for years, and knows the software whether is current, delinquents, protested, or partial payments. She understands the mill levies entries, receipting, collection reports and government accounting.

I strongly recommend her as County Treasurer. If Linda was here in my county, I would hire her as part of my team for Sanders County.

Ravalli County would have a wonderful team payer and excellent employee.

Sincerely,

Carol Turk
Sanders County Treasurer
