Dear Commissioners, Regarding your rejection of Title X funding, we urge you to reconsider. We believe that Ravalli County and its residents will be far better served with the services of the Clinic than they would be without them. We earnestly hope you will accept the recommendations to accept the funding by both Anne Ward and J. David Laraway, M.D. as expressed in their Letters to the Editor in the Ravalli Republic on Sep. 13, 2013. Certainly, the health benefits available to the 400, or so, families that utilize the Clinic should be the focus of your consideration rather than some vague feeling that you're not totally comfortable with. Thank you for considering our point of view on this very important issue. Sincerely, Pat and Dick Tourangeau, 1006 Judd Creek Hollow, Hamilton, Mt. 363 4018.
