Subject: Title X

Dear Commissioners,

I feel obligated to sign on as one more voting constituent who is disappointed - make that appalled - by the Board's decision to turn down Title X funding and thus undermine the health and well-being of our citizenry. I refer you to Dr. Laraway's Valley Viewpoint in today's Republic or the one in yesterday's paper for factual data that I would hope might help you see past the constraints of your narrow-minded ideology and do the right thing. Use your power wisely, vote to accept the funds.

Sincerely,

Brian Cherry
