Dear Commissioners.

I just want to go on record to say that I am deeply disappointed in the recent vote to turn down Title X funding. It's obvious to anyone that this decision was based on the personal religious views of certain members to be forced on everyone else - and at the expense of the health and well being of many of our citizens. It's disappointing at best and at worst, it's very scary.

A resident (with many voting with friends).
