Subject: Website Email -Funding for the familthy planning clinic

To all commissioners. First I would like to thank Mr.Burrows for his professional and even handed way he lead the Health Board meeting last week . We now , at least , have an opportunity to re-address the decision that was made regarding the Title X funds. There are many reasons that this funding should be re-instated. Rather than address them here , these will be clearly reviewed Monday at the special meeting of the Health board that has been granted.

I am in all hope and sincerity asking all commissioners to attend this meeting and give considerations to the concerns that will be raised. I firmly believe that the health and at times the lives of many women and youth in our county depend on your leadership.

I very much hope to see you there. Again thank you for the opportunity to try to convince you to right this wrong,

Sincerely, J. William Peters Md , Family Physician
