Subject: Title X

Dear Ravalli County Commissioners: I was a child of the '50s and '60s and a young teen before the availability of birth control or even sex education. Choices, then, were impossibly difficult. Many of us still are burdened by the results of those choices. Please accept the Title X funding so that today's Ravalli County girls and young women are not burdened with terrible decisions and have what they need to live healthy and well-informed lives.

Respectfully,
Becky Homan
