Subject: Title X Funds

I am writing to strongly encourage the Commissioners to reverse your decision on the Title X Funds. I concur totally with what Dr. David Laraway said in his op-ed in the Ravalli Republic. You have taken away much needed health services in this valley from the women who need it the most, the lower income group. You are basically "cutting off the nose to spite the face"---a VERY POOR choice on your part. You have no right to impose your personal feelings to the detriment of the entire community.
