- 1) Karen Wilson - this was wrong to cut funding for low income women. PLS change your minds
- 2) Rebecca - your decision to cut Title X funding is unconscionable. - Reconsider
- 3) Amy of Missoula - vital for your community - family planning, STD's, cancer screening for low income.
- 4) Janet Mier of Rav. Co - Unconscionable & you need to reconsider - important health services. Our tax \$ as well.
- 5) ? Change decision & take Title X \$ This a family issue affects impacts of family units - your personal morals being placed on everyone - I might not like what your health care issues are.

1)

Joan Daniels of Stevensville  
upset w/ your decision not to  
except Title X \$. This is not  
Christian & she is ashamed  
of Commissioners. Heart care;  
not just contraception is  
important to these low  
income residents.

2) Laurie of Great Falls  
urges you to reconsider -  
she has family in Ravalli  
Co.

Title X to BCC  
by/Glenda

1) ? <sup>A</sup> U.S. marine corporal since 2010 -  
I have needed (these services) - some  
can't afford to have kids + they need  
help w/ Family Planning - I would not  
have made it if I hadn't had Family  
Planning help. PLS reconsider

2) Warren Neyenhuis - Ravall Co resident -  
pls accept Title X. To deny is  
anti-family + savages those least able to  
afford. This hurts instead of helps family

3) Gayle Knox 961-6945 nequay  
foss

4) Wendy Cample - Darby - BCC needs to  
reverse their decision - this is for  
Cancer screening - women should be  
considered part of this community -
