Subject: Title X Services

To whom it may concern;

I am writing to express my concern about the Title X services you plan to stop providing.

I hope you will reconsider your decision. I am one of many who benefit greatly from these services. I have four children and I work two jobs, and I still struggle to pay bills. I donate to the clinic as often as I can, but there have been times when I could not. I appreciate them being there to provide health care and birth control during those times.

Thank you for your time,

BOBBIE SUE & CO
