Subject: 6 votes oppose

To ALL Ravalli County Commissioners:
Greg Chilcott, Suzy Foss, JR Iman, Ron Stoltz, Jeff Burrows,

I understand you will have a meeting with the County Health Board again tomorrow, requesting you accept federal funding for Title X Family Planning Program. You have bravely faced this question before and refused the federal funding. You remember, I am sure, that federal funding does not come without added costs to the county. Dan and I would like you to know that, though we cannot be in attendance, please count us in the group that opposes the acceptance of federal funding. You can also add 4 more voters to this count as 2 of my daughters and their husbands have also expressed objection. We all oppose the use of tax dollars for the purpose of providing counseling and abortions to underage children, without the consent or knowledge of their parents. If someone wants to fund the killing of babies, let them do so at their own expense. No matter what words they may use to describe this action, it is still the murder of babies. There are other options for these young girls than abortion. If you want to use tax dollars to council young girls, use them for an abstinence program in the school rather than the homosexual teachings they are presently receiving.

Thank you for your service.
