Subject: Refusal of Title X Funds

Attention: Commissioners Foss, Burrows, and Stoltz,

Your vote to refuse Title X funds was illogical and unconscionable. Your actions support my hypothesis that candidates for public office whose primary credentials are their adherence to extreme ideological positions are largely unqualified for those offices. You should climb off your ideological toadstools and learn about how life really works and take actions to improve circumstances for those members of our society that need assistance from the rest of use.

I sincerely hope your can find the decency and courage to reverse your recent decisions regarding Title X funds.
