

To the County Commissioners,

Regarding the Title X Federal funds.

Thank you for standing firm

and saying "NO" to this federal

funding -

We do not need or want

federal money with "strings" attached,

which is always to their benefit.

Perhaps, now that you have

taken a stand - other counties will

do the same -

Although we were gone and

could not attend the meeting, I

was told many people said they
resent this funding. But believe
me, many do not, & they fully

support you in this issue.

Thank you, hang in there,

and keep saying "no" to a

many federal funded programs

as you can.
