**Subject:** family planning clinic

I think it is outrageous that you have voted to reject federal funding for our family planning clinic. Not only does it deny needed preventative medical care, which reduces future medical costs, the county itself is also losing a substantial amount of money, and possibly jobs, that help the overall economy of the Bitterroot community. Please reconsider your votes, and I'll reconsider my votes against Foss, Stoltz and Burrows in 2014.

Sincerely,  
Mary Anne Lynes
