Dear good servants of Ravalli County.

I saw the news tonight (Monday). I am not into protests

I will quietly carry a sign. I will carry a sign supporting the idea that life is precious next Sunday.

To end a life, even in the womb is a the weightiest of decisions. If the Federal government will not act with wisdom, I am proud of the commissioners who are willing to face the ire of a public grown used to Federal funds and Federal strings and policies bent by confusion. It is high time we stop "selling our soul". I really hope a plan will be forwarded to distribute the needed health care in a way that suits us locally.

I think you are brave and I admire your resolution.

Do what is right...and you did by me!

Whatever happens in days to come I am going to remember what you did here with admiration.

There may have been 100 in protest today - there will be 400 on Sunday - not protesting but praying. I will be praying for you all. I will thank God for 3 votes.

I hope the 2 will learn to stand with the 3. Consider it - we want our local values to make local policies.

Sincerely,

Pastor Vern Sandersfeld
