To: Ravalli County Commissioners
Subject: you should be ashamed

I am writing to scorn the three of you for turning down our \$50K for family planning. Who do you think you are? God? Pat Roberts? Glen Beck?

You have sacrificed the community health for your own agendas; towing a party line that belongs in Washington, not Ravalli county.

You have left hundreds of women scrambling for health screenings, leaving them to figure it out on their own how to take care of themselves. This money is good money and helps your community and NEIGHBORS! I'm sure your own daughters have been to a doctor for feminine issues but you probably paid for it out of your own silk lined pockets and would never admit they used a crummy public service such as this.

You people deserve a long life of your own misery, made solely by your own actions and decisions and disregard for your community. You have been elected to represent your community, yet you vote to keep them in their little caste so as not to infringe upon your own superiority.

I hope this poor decision eats at your soul; you deserve nothing from this community and I hope you pack your shit and GET OUT!! Move in next to Carl Rove and Rush Limbaugh; of course they'd never allow paupers such as yourselves into their neighborhood.
