**To:** Ravalli County Commissioners  
**Subject:** Billboards & signage

Please do not change the signage statutes of Ravalli County. I moved to the valley over a year ago for its nice rural an urban vistas, and billboards detract from the beauty of the valley. They proliferate and before you know it, they become the primary visual element of the landscape, especially along roadways. They are distracting, as well, and as you know, divert drivers' attention while on the road--and can be dangerous in some situations. Please don't bring visual blight to The Bitterroot!

Thanks for listening.
