**Subject:** Road Signs and Billboards

We would like to voice our opinion on the sign ordinance. We would like to see NO SIGNS along highway 93.

So we would be strongly against a new sign ordinance that would allow larger signs. Highway 93 is considered a "Scenic Drive" through the Bitterroot. Even with the current sign ordinance. it is anything but scenic. The Bitterroot Valley has already been ruined by bad zoning. This would only make our views in the valley worse. Please don't clutter our valley any further with bigger signs. Businesses have better alternatives to advertising than billboards and highway signs i.e local papers and magazines, local television, local events, internet, phonebook etc. It only serves as another distraction for drivers. Please make our valley CLUTTER FREE and scenic, the way it should be.

Thank you,  
Troy and Cindi Tack
