Subject: To our county commisioners-Title X Funding

While I have had some mixed feelings about refusing the Title X funding, I want to extend a thank you for "letting your yes be yes and your no be no". That is one trait in politics that is seemingly hard to come by these days. This will be a very good litmus test for the new "Affordable Care Act". I hope this care act will truly help those that need it. Thank you again.

Vanessa Wood
