Subject: Sign regulation

Commissioners,

I wish to express my opinion on the sign regulations. I am NOT in favor of a change to the current sign regulations. Increasing the number and size of signs is going in the opposite direction of most communities. Once you have large signs in place it is very difficult to have them removed.

A great attraction of the Bitterroot area are the views of the valley and the surrounding mountains. We need to keep these views in place by NOT changing the sign regulations.

Thank You,

Jim Campbell
