Please do the right thing in regards to the airport expansion and vote for 4B. This is the safe and sensible thing to do. Please do NOT give in to the pressure from the opposition.

Subject: Airport Future

Dear Ravalli County Commissioners:

My wife and I moved to Ravalli County after retirement because we fell in love with the Bitterroot over 20 years. We also moved to escape what was happening in California. Of course, they have a myriad of problems but a major one is letting the voices of a few dictate the direction and the future viability of a community through non-growth advocacy and the threat of lawsuits. I see this happening in Ravalli County with the future plan for the airport.

I am a pilot and an aircraft owner. I have been flying for over 40 years and I am not going to stop until I have to. And certainly not because the airport eventually closes. But I fear I will have to again "vote with my feet" as I did when I left California. We built a house in 2010 and have spent a good deal of money in the community, and would like to continue to do so. But I will go where I can hangar and fly my airplane without the looming threat of an unsafe airport or one doomed to closure.

I know I am not alone in my position and I am sure you can extrapolate my reasoning to encompass businesses, future businesses, the retention of the young people in the community, etc., etc.

I urge the commissioners to vote for option 4B.

Sincerely, Bob and Kathy Dewante

Glenda Wiles

Subject: Airport improvement

Ravalli County Commissioners:

Please be pro growth, pro jobs, and pro safety and vote for alternative 4B in the upcoming meeting scheduled for 19 Oct 2012. Keep in mind the economic impact Ravalli County Airport has on the county and what it could provide in the future if it was allowed to grow and provide a safe environment for those using it . Ravalli County Airport is the gateway for big money coming into the valley. Let's have an airport that makes a good impression, that welcomes people and invites them to do business here in the valley. Let's create an airport that provides a place for future businesses. I believe we now have commissioners that have that kind of vision and I thank each and every one of you.
