Good morning Commissioners!

You may have noticed some work begin done at the Bitterroot Public Library the last two weeks. Last summer, we had several larger bushes die and when we received a bequest, we decided to spend a portion of it revamping the front of the building. We had the portico painted and last week, they finished up a landscaping project which will allow for more usable space out front. We have put in some cobblestone areas with benches for people to sit outside and we've added some native plants that should significantly cut down on the maintenance of the space.

I encourage you to come by and take a look at the improvements and to let me know what you think. We have a few other small projects to freshen up the space here and if you do stop by, come and see me and I will fill you in on those as well.

As always, thank you for your continued support and your dedication to providing library services to Ravalli County.

Trista Smith
Library Director
Bitterroot Public Library
