To Whom It May Concern: I'm writing to see what might be able to be done about some pot holes that are quickly becoming sink holes. I live on Meridian Road in Victor, (2662 Meridian Road). A few years ago pavement was put down on the north end of Meridian Road. Over the past year or so the road has pretty much be in great shape. The highway dept has done a little maintenance, but some of the holes are getting worse. The worst holes are by the intersection of Sweathouse Road. The holes have gone from avoidable to now you can;t miss them. I called the highway dept back in July and asked about getting them fixed and nothing ever happened. I know that winter is coming and the road is going to freeze and the pot holes will get even worse. I am hoping that maybe your office can help where no other avenues have. Thank you very much for your help. Kevin Copp
