Subject: removal of Jan Wisniewski from planning board

Glenda,
Would you please forward this on to the commissioners?
Thanks,
Carlotta

To the board of county commissioners:

I request that you remove Jan Wisniewski from the Ravalli County planning board as a consequence of his unacceptable and racist remarks to the Confederated Salish and Kootenai Tribal council members on Nov. 20, 2013. Wisniewski is an embarrassment to Ravalli County and his comments should not go unnoticed or unremarked. Furthermore, I request the board write a formal letter of apology to the tribal council. I notice that the commission appeared concerned that the tribe might build a casino on their land and the county taxpayers would be on the hook for providing services. The land is clearly unsuitable for large-scale development. Additionally, I didn't read anywhere that the board was as concerned for providing county services to Legacy Ranch, which would result in hundreds of homes on currently undeveloped land and would have a much greater impact on county services. The hypocrisy of this board is, as usual, stunning and incomprehensible. I would further request, then, that the board abandon its protest to the CSKT plan for its property.
