To the Entire Board,

Respectfully, I don't believe that one board members world view is the same as the whole board. That would be an Assumption and Generalization and clearly Prejudicial. Are there any measures that the board can take, or at least distance yourselves from this disconnected "PIGEON LOGIC" and clearly uneducated rant? If you agree with the statement that was made, my heart goes out to your family and the Bitterroot Valley residents as generally people are cerebral and good.

Sincerely,

Jay Fyant
Polson, MT.
