To the Commissioners,

Jan Wisniewski's racist comments about "drunken Indians" made at the recent meeting with the Confederated Salish and Kootenai Tribes are completely unacceptable and totally irrelevant to the subject of the Medicine Tree.

We demand the removal of Jan Wisniewski from the planning board, and that both he and the commission write a formal letter of apology to the tribal council for his behavior. This letter should also be published as an editorial in the Ravalli Republic, Bitterroot Star and the Missoulian. Anything less is an utter embarrassment to the citizens of Ravalli County!
