Dear Commissioners: I am new to Ravalli County -- drawn by its beauty and by my husband's lifetime love of this place.

But the beauty turned so ugly today when I read comments by your Planning Chair Wisniewski at a meeting of good faith on the part of Native American tribal leaders.

Wisniewski's ignorant, racist comments about "drunk Indians" had absolutely no place in a discussion about a beautiful tree and area sacred to these tribes. You didn't apologize for him then, which is remarkable in itself. You should apologize for him now and do so publicly.

Also, the term public servant is no longer applicable to Wisniewski, in my opinion, since he serves only his backward, racist thinking. He should be replaced.

Sincerely,  
Becky Homan
