Hi, my name is Igor. I am 14 years old, I 'm in school at 9 "A" class. I love geography and educational television programs about travel . When I grow up I really want to travel around the world and discover something new . Find new friends and learning new languages. Now I am pleased to learn English when I learned it , I will start to learn German and Spanish. I would very much like to visit your country , visit the historic sites and enjoy your culture and history. But still , I can not come , I'm still young and I do not earn money. But I hope that someday I can come to you. I would like to ask you about any souvenir of your city and country. I wanted to get a badge, t-shirt or any nice souvenir . I would be happy to get any souvenir from you. I would be very pleased and you really would have made me a very happy man. Thank you very much .

In the photo - I am!
