Subject: Restore constitutional rights

America was built on the understanding that our right to support our families through work, to engage in trade and reap the rewards of our labors is a fundamental, God-given right. I know that elected officials at all levels of government are concerned about the public health and welfare, and I appreciate that. We all need to use common sense and take precautions in the midst of the pandemic. But heavy-handed government orders that interfere with our most basic liberties are certain to do more harm than good to the American people. People are losing their jobs, and the impact of the current shut-down on countless families and their livelihoods will be dire and long-lasting. It's time to re-open our community for business. On behalf of my family, friends, and neighbors, I hereby petition you to do all that is within your power to make that happen. Thank you for your service to our community during this difficult time
