Subject: Public Meetings

The Ravalli County Commissioners have been discussing the steps necessary to accommodate various county boards to convene public meetings. The Governor's directive provides the guidelines necessary to hold meetings. Members and citizens participating in the Collaborative, Open Lands Board and Planning Board meetings will not be able to meet all the age, social distancing, and gathering size requirements.

We should err on the side of caution and not schedule a public (face-to-face) meeting in May. If there are any projects, concerns, suggestions, or insights that may help us stay focused and move forward, please reply to ctaggart@rc.mt.gov directly. If there are time sensitive projects, these boards may consider a conference call or video meeting. Otherwise, I will forward any information sent to me to all appropriate board members.
