RE: Ravalli County Comments the Piquett Creek Project

Dear Seth,

The Board of Ravalli County Commissioners (BCC) thanks you and Forest Supervisor Matt Anderson for considering the following comments on the Piquett Creek Project decision.

We support the purpose, proposed actions, detailed analysis and collaborative development of this project.

We understand the project will continue to evolve and would encourage the Forest Service not to reduce the proposed commercial units. We feel there are additional opportunities for commercial harvest, specifically in units 102, 103, 116 and 119.

Please consider these comments as part of the official record for the Piquett Creek Project. We look forward to being actively involved as this project develops.

Sincerely,

Ravalli County Board of Commissioners
