Subject: [EXTERNAL] Asymptomatic COVID-19 testing

Hello,

I spoke with our public health department and am dismayed to learn that Ravalli County has not authorized testing for COVID-19 for asymptomatic individuals. I have regularly been hearing on the news about the availability of this testing for residents in several other western Montana counties (among other locations in the state), so I am baffled as to why it is not available here. I know that there is a statewide initiative for asymptomatic testing as part of the reopening plan so that we can have the knowledge necessary to reopen safely and to keep our economy moving forward once again. I strongly encourage you to authorize asymptomatic testing in our county and to do it right away! I hope that we all want to keep our communities safe, healthy, and strong, and to do that, we need a complete picture of what is happening here.

Sincerely,
Cammie
