Subject: [EXTERNAL] Failure to support Gov. Bullock's recommendations regarding wearing of masks

I was incredibly disappointed in each of you when I heard on the 5:30 KPAX news on Monday, 7/20/20, that "the commissioners" are not supporting the county health officer's attempt to follow Governor Bullock's recommendations regarding masks in Ravalli County. I cannot think of a reasonable explanation for your choice.

My gut feeling is that this is a political decision on your part or a personal vendetta against Carol Calderwood. It could not possibly be a decision made in the best interest of the citizens including our children in Ravalli County. These are precarious times we live in. Why on earth would you not do everything you possibly can to promote safety and help to bring down the infection rate here and across our state?

I would expect that to be one of your major duties as an elected official. I heard someone say a few days ago that their parents used to say that "common sense is not that common". It appears that is now the issue in Ravalli County. Come on - you can do better than this!

Due to health reasons, I have to stay in my home and cannot attend the meeting on Friday. I'm very disappointed that I cannot attend and can only pray that safety will prevail with you in this decision.

As a voting citizen, I'm counting on all of you to rethink your stance. Put your personal issues aside and decide in the best interest of the citizens and children of our community. We need your support.

Sincerely,
Victoria Moore
