Subject: [EXTERNAL] Masks

I don't understand how you can say you are supporting Dr. Calderwood when you refuse to adopt her scientific recommendations and follow our governor's order on masks. You accept speed limits and no shirt no shoes no service so why not accept wearing masks? If someone doesn't want to wear one they have the choice to stay home. I am 65 and have asthma and you are taking away my right to go to the grocery store when others are not wearing masks and I am. Also, if we want businesses to stay open and schools to start we need to slow the spread of this disease. It is no joke. Don't wait until it's too late. Do what you can now to reduce the risk as much as you can. Wearing or not wearing masks should not be a political statement. Ask Dr. Calderwood to come back and follow the governors order. That is how you show your support for her and for others with a high level of risk.

Thank you.
