Subject: [EXTERNAL] Message on your website

Please take your message down regarding contacting the public health department about the decision to close the fair.

It worked.

The Public Health Nurse was thrown under the bus while she was trying to do her job. And consequently she resigned.

The Public Health Department phones and emails need to be available for our health professionals to do their work --- to help us in this pandemic. Not to engage with disgruntled fair-goers who think cotton candy, a rodeo, and a scary ride is more important than my life.

I realize that you and others have put a lot of hard work into this fair and you must be very disappointed. Please realize that those of us in high risk categories want to get through this stressful time and get back to the lives that we have loved, including going to the fair. But not this year. Maybe not next year.

Wishing you wellness,
Sally Blevins
