Subject: [EXTERNAL] Board of Health Meeting 07/24/2020

I urge the Board of Health and our County Commissioners to make a recommendation that the wearing of masks in public spaces is an important tool in slowing the spread of Coronavirus in our community. Please show leadership in protecting the health of all individuals in Ravalli County. Disease is a health issue, not a political issue. Listen to medical professionals, and be ready to accept advice. Wearing a mask is not comfortable, social distancing is not the ideal way of interacting with friends and businesses. We would all like to get back to our pre-Covid lives, but have to accept there are some behaviors we have to change to get to our goal. Support wearing masks in public spaces. Please do not mistake inconvenience for oppression.

Thank you to Dr. Carol Calderwood for your many years of leadership, integrity, reasoned advice, and compassion for the Ravalli community.

Kerry McKillip
