RE: Montana Studios  
October 1, 2020 Meeting

We would like to submit a complaint for the record as to the building lights on their property which light up the surrounding area. There is no need to light up a field that is a 1/4 mile away from their building.

All the neighbors would be much happier if they shielded those security lights DOWNWARD instead of OUTWARD. It would let us all get back to some semblance of a normal night sky. One full moon a month is enough vs. an every night occurrence.
