Thank you county commissioners for upholding our rights as free citizens to decide the level of risk we decide to take as we maneuver these days of coronavirus. Just because we are not hearing all the data out there concerning the uselessness of mask wearing does not mean it is not available with a little research. My husband and I are in the high risk group but we do not want our children and grandchildren to grow up into this current world of tyranny that has been created this year under the rise of "flattening the curve" and saving our vulnerable populations. Please continue to let us decide whether to wear a mask or not. We are counting on you to stand strong and defend our personal freedoms. We thank you so much for what you are standing for and pray for wisdom for you as you navigate these treacherous waters. Sincerely,

Dick and Marge List
