**Subject:** [EXTERNAL] No to mask mandate

No to mandating masks. If you want to wear one go ahead... if not no need. If you can smell a fart through a mask pretty sure that a microscopic virus can get in there too.

If masks truly protect us then why is there an outbreak at every school which requires the kids and staff to wear them all day every day. And then they still have to quarantine... plus if masks worked we could go about life, funerals, wedding ect as usual. And have no worries.

It says right on the mask box that the masks do not and will not protect you against getting covid - 19

~Michelle Seaton
