Subject: [EXTERNAL] COVID-19 Statement

Hello Chris - from fellow Soroptimist, Nancy!

Today is a record-breaking day for Montana in the number of COVID-19 cases. We understand that my commissioners are going to put out a statement soon on the situation. We are asking you to put out a strong statement telling people to do such simple things: wear a mask when you are in public; keep a social distance when you are in a store or in other public areas, use the hand sanitizer in stores/businesses when it is offered.

You are asking your constituents to be mindful of their own health, and to be thoughtful and proactive towards the health of their valley neighbors. These are not demanding requirements and they should not be considered political. How can being kind and considerate of the health of all of us be a negative?

Thank you for reading this.
