Subject: [EXTERNAL] Time to mask up!

Ravalli County Commissioners:

I don't think that things are going to improve by doing nothing. They are just going to keep getting worse and more people will get sick, some will die and the problem will take longer to resolve the longer we wait.

Let's fix the voluntary mask problem.

Masks are particularly important in preventing the spread of the virus from people who show no symptoms and may not know they are contagious.

Basically they protect other people rather than the person wearing them.

130 new cases in the last 10 days.

Thanks for your time.
