Subject: [EXTERNAL] Mask requirement

As a physician I strongly believe that masks during this Covid spike not only will save lives but many of the other consequences of this virus. The evidence is clear and if we care about each other at all it is such a small sacrifice to make. We are all in this together and , unless we are tested, we do not know who might be able to spread this virus to others.

Please consider all of us and require masks as the CDC and most experts suggest until we have a better plan.

Hopefully , Bill Peters MD
