Subject: [EXTERNAL] Board of Health Wastewater Regulation re-write.

Date: January 26, 2021

To: Ravalli County Board of Health, Ravalli County Environmental Health, Commissioner Jeff Burrows, Commissioner Greg Chilcott, and Commissioner Dan Huls (sent to Chris Taggart since no email is listed for Commissioner Huls)

From: Penney Howe and Jim Canton

Subject: Ravalli County Wastewater Regulations

Your review and rewrite of the Ravalli County Wastewater Regulations needs to be put on hold until the current legislative session is completed and the new Director of the Department of Environmental Health has gotten a chance to review current Administrative Rules and processes within his department.

This request is being made due to the fact that we have personal knowledge that certain laws in reference to this very subject are currently under legislative review. Stop spending taxpayer money on something that more than likely will have to be changed in the very near future. Please create one re-write that is the most up to date document that will be required by law.

Follow the lead of Mayor Engen and Missoula who have said they will hold off on the implementation of the "vaping ban" until the end of the current legislative session, since the ban they were going to impose created immediate lawsuits. Please wait until the legislature is over so that any document that is written now, does not have to be re-written or opens a door for a possible lawsuit.

Thank you for your consideration in this matter
