Hello,

I'm asking you to try and do something in the matter of having the state install some type of safety barriers in the center of Highway 93.

My husband and I have lived in Victor for 23 years. All these years we have read and heard about people having head-on crashes on Highway 93. Some of these people have actually been friends of ours.

No matter the circumstances that may have caused the crash, whether it be, icy road conditions, drunk drivers, drivers high on drugs, drivers not paying attention or texting on their phone, a medical condition, etc.

All of that really doesn't matter. I honestly believe if there was some kind of safety barrier in the median on Highway 93 some of those lives would have been saved.

I am begging you to please convince the state to spend the money to put up safety barriers in the median along Highway 93 right away. Not 5 years or more, right away.

Some of these head-on crashes could have been prevented if safety barriers were there in the first place.

Thank you for listening,

Jane Johann
