Subject: [EXTERNAL] RAL Trail Expansion on Golf Course

Dear Ravalli County Commissioners,

I am writing in support of any trail expansion that occurs on Golf Course Road. As you all know, the road currently has the following problems:

- Road is narrow
- People travelling up and down the road exceed the speed limit
- Road continues to get busier and busier with new homes
- Many people use the road on foot or bicycle despite the risk
- Texting/distracted driving is increasing
- Drug use and driving does not seem to improve
- Children do not always have the judgement or risk management skill in this type of setting – many children live in the area too
- A very important life was lost on this road due to many of the factors listed above
- **The proposed modification will do something about all of this!**

I'm more than willing to explain further. Please, please, please do not hesitate to contact me if you'd like to discuss.

Thanks for your time and please make this happen in honor of Robert and in the name of good judgement considering the obvious risks inherent to that stretch of road .

Brad Lawson
