**Subject:** [EXTERNAL] South of Stevensville Safety Improvements Project Update

Hello all,

We would like to first thank all residents, commuters, and other travelers in the Stevensville area for their patience and understanding throughout this project. We have an important project update that we wanted to share with you all.

FirstMark Construction has discontinued their business with the Montana Department of Transportation. At this time, the Department of Transportation is determining what this means for the future of this project. The timeline for construction to resume is unknown, however it **will** return at a later date. No pilot cars or traffic control will be utilized at this time. Please continue to drive cautiously around any construction materials or equipment near the project area.

We apologize for any confusion or frustration this causes. We know this project has been a long time coming, and we will do everything in our power to see it through. If you have any questions about this update, please feel free to reply to this email. You can also call our project hotline at 406-207-4484 with any comments.

Best,  
Amy Aiello  
Big Sky Public Relations on behalf of the Montana Department of Transportation
