Subject: [EXTERNAL] Intersection of Red Crow and Bourne lane

Hello, My name is TJ Varner of 494 Moose Hollow rd. Victor. I along with several of my neighbors have called the County Road Dept. several times over the last number of years to no avail.

The issue is the danger presented by the lack of visibility and absence of any stop signs at the intersection from either the east on Bourne or from the north on Red Crow creating a very dangerous situation. Frequently the vehicles going west to the gravel private portion of Bourne do so at highway speed. A drive to the area would do more to demonstrate the situation than i can describe particularly the impact of summer foliage.

This is a sharp contrast to the Bear Creek and Red Crow intersection where there is a 4 way stop with almost unlimited visibility and less traffic observed by those of us that drive it every day. Thank you for your consideration before there is an unnecessary serious accident. Regards TJ Varner
