Subject: [EXTERNAL] Water

There seems to be a population explosion in Ravalli County. I have read where other communities are having water problems i.e. insufficient water to support their rising population. My question is; Have you commissioners thought about or inquired of the proper department the status of our surface water supply and the status of the aquifer that feeds the residents wells in Ravalli county with respect the burgeoning population. If so, I respectfully request a copy of the the report and that you publish it for all to see. If not - why not ? Also; the traffic on route 93 going through Hamilton is similar to the traffic on Reserve St. In Missoula and getting more congested by the day. I have noticed emergency vehicles are having difficulties getting through it. Any thoughts of a bypass or ?

Respectfully, Richard Clark Corvallis, Mt. 406-360-4882
