

File Code: 1570
Date: October 4, 2021

Dear Objector:

My staff and I are reviewing the objections received for the Mud Creek Environmental Assessment and Draft Notice. I have decided to exercise my discretion under 36 CFR 218.26(b) to extend the time for the objection review. This will allow us to conduct a thorough review of the issues.

With this extension, I intend to issue my final written response by November 8, 2021. If you have any questions or need additional information, please contact Olga Troxel, Acting Regional Administrative Review Coordinator, at (406) 329-3314 or email olga.troxel@usda.gov. Thank you for your interest and involvement.

Sincerely,

KEITH
